The opinions expressed in this column are the personal views of the writer and do not necessarily reflect those of the management; in fact, many times they do not.

#### CANNOT HOPE TO PLEASE EVERYONE

Now that the nominations are over and the campaign in full swing I presume that within the next few months I will say many things that will not meet with unanimous approval of my readers, who, naturally, are of mixed political persuasions.

The life of a newspaperman is not all beer and skittles as many imagine. The same articles will please and offend, and often there is a conundrum as to which side of the fence to jump. Although not supersensitive, there are times when we envy the lot of the lowly whose labors are not calculated to arouse argument or cause high blood pressure.

If a newspaperman does not express the faith that is within him and seeks in his writing only to say what will please his readers in other words, truckles, he not only loses his own self-respect, but inevitably loses that of his readers.

We do not all think alike, but if we are fair-minded we respect the other person's opinions; however, if Nature contracted the space between our eyebrows we take violent exception and assume that everyone who disagrees with our conclusions are out of step.

The writing of this column has been my pleasurable task for over two years. In that time I have expressed my views on a variety of subjects over 400 times, and have had occasion to disagree with me, which is their right and privilege. Doubtless, I have often been wrong. Had I not been, I would have exceeded the law of averages in such things, and I do not lay the flattering unction to my soul that such a

## F. D. R. Must Heal Wounds Of Conclave

BY ARTHUR F. DEGREVE

United Press Staff Correspondent  
PHILADELPHIA, June 26.—UP—Worried New Dealers tonight looked to President Roosevelt to heal deep wounds left by underdog National convention fights over the sharply worded liberal platform and abandonment of the two-thirds rule in preparation for a vigorous crusade against the London-Knox ticket.

Conservatives feel the party aimed in recommending a constitutional amendment, if necessary, to achieve its broad social program. They struggled in vain to eliminate this pledge from the platform. Disoriented and alarmed, they insisted tonight that the issue be soft pedaled.

The dinner will probably be held at the Berkeley Country Club.

It was announced that Regina Matthews is holding a slight edge in the race for queen over Anita Drummy.

Judge MacKinnon then delivered a lecture on the danger of driving at a high rate of speed when under the influence of liquor and gave Durant his choice of either paying \$100 or going to jail for 30 days.

After considering the matter for a brief minute, Durant handed over the fine.

## \$6500 Verdict Is Returned In Accident Suit

MARTINEZ, June 26.—After deliberating for an hour, a jury in the court of Superior Judge T. D. Johnston this afternoon returned a verdict granting \$6500 damages to Barney Rohles who operates the restaurant at the Rancho San Pablo in El Cerrito against G. H. Bateman and the Bateman Motor Sales Company. Rohles had asked for \$26,365.

Rohles asserted he suffered severe injuries when struck by a car in the Bateman garage. He alleged that the accident was due to the negligence of a mechanic who stepped on the starter of a machine while it was in gear. He was knocked down by the machine and injured.

Earlier in the afternoon Judge Johnston denied a motion by James P. Hoey, defense attorney, for a non-suit on the grounds that no evidence of negligence was shown. Rohles was represented by Attorneys Gerald F. Harrington of Oakland and Robert V. Collins of Richmond.

## Blum To Ask Nations To Form Union

PARIS, June 26.—UP—Premier Leon Blum will motor to Geneva tomorrow to propose convocation of a committee to study the possibilities of a "United States of Europe" formed along the lines suggested by Aristide Briand years ago. It was learned tonight.

The union would be open to all European members of the League of Nations and also to Germany. This development followed closely on the heels of a French appeal to Germany to seek clarification of their misunderstandings by a continuous effort to settle all outstanding differences either through diplomatic channels or direct conversations, preferably at Geneva.

France's initiative towards formation of a union at Geneva will be chiefly in corridor conversations where Blum and Foreign Minister Yvon Delbos will sound out other European foreign ministers and diplomats to determine their reaction to the French proposal.

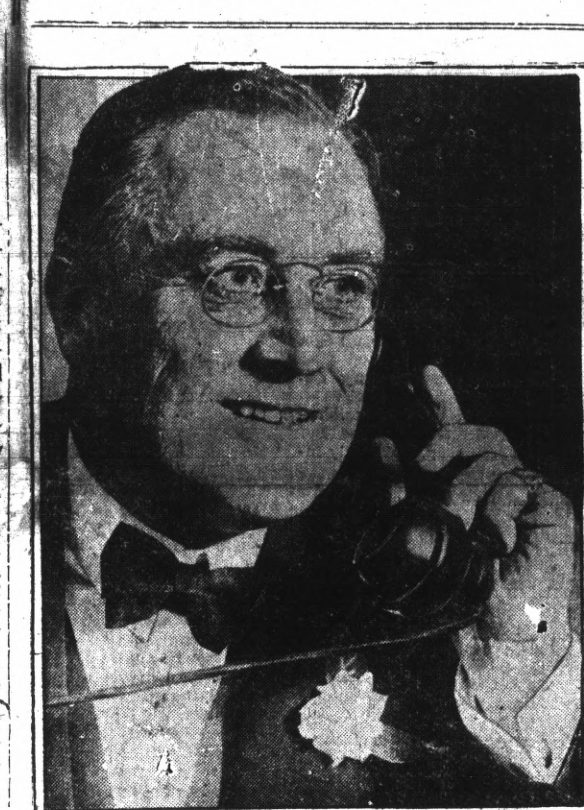

When Briand laid down his plan for a "United States of Europe," he had peace in mind, but his action was purely political, it was said. Now, however, politics have been shoved into second place, and Blum is expected to advance economic and commercial arguments to convince other nations of the advisability of such a union.

## Slayer To Invoke The Unwritten Law

DENVER, Colo., June 26.—UP—Sidney Buncie, 48, former Vallejo man who confessed "slaying" Harry Raasch, 42, on the steps of the Denver postoffice, pleaded not guilty today to charges of murder when arraigned before U. S. Commissioner Leo Crowley here.

Government attorneys prepared to fight any claim by Buncie that the killing was justified by the "unwritten law." The possibility that Buncie would seek to evade conviction on the strength of the unwritten law of the sanctity of the home was based on the former Callaghan's assertion he returned to Denver to settle his marital difficulties which he said he believed to have been caused by Raasch's attentions to Mrs. Buncie.

Robert Carlisle, 60, the messenger, told physicians and police at emergency hospital the attack robbery occurred when he left a wholesale grocery establishment.

#### LEAPED FROM CAR

The attackers, witnesses said, leaped from an automobile. One of them slugged the messenger with a blunt instrument, it was said, while the others ripped the satchel from his hands.

"There was no one around and I didn't see the men until they started raining blows on my head," he said. (Continued on page 8)

Johnston. The writ was made returnable Monday, July 6th.

#### SUES AS TAXPAYER

The complaint on which the writ was issued was signed by Paul Robinson, a taxpayer, of 1436 Macdonald avenue, Richmond, but in reality was in behalf of Antonio Mazza, who attempted to file a bid after the hour set for their receipt and found that he was the possessor of three hands—right, left and a little behind hand.

## Time To Roll Up Sleeves, N. J. Republicans Told

PLAINSBORO, N. J., June 26.—UP—John D. Hamilton, Republican national committee chairman tonight opened a nation-wide campaign for his party's ticket with a vigorous plea to New Jersey Republicans to "turn out to vote" for Governor Alf M. Landon, presidential nominee, or face the possibility of losing the election.

Addressing his first Republican rally in a tour which he expects will take him to almost every state in the Union, Hamilton pointed out that New Jersey went Democratic in 1932 by only 35,000 votes and that "this is easily made up." He was enthusiastically greeted upon his arrival from Washington.

"I am not selling my candidate," he said. "I don't have to. But I am out endeavoring to bring out the necessity for concerted action. This is a fight that we are going to win—we have rested on our laurels too long. It is now time to roll up our sleeves."

**CUBS IN VICTORY**  
Butcher, who started for Brooklyn, was forced to retire in the eighth with a stitch in his left side, and the last two St. Louis tallies came off George Earnshaw.

The Cubs came through with a 3 to 1 win over the New York Giants behind the six-hit pitching of Carl Davis. The victory increased the Cubs' second place margin to three and a half games and dropped the Giants back into fourth position.

**PIRATES WIN**  
The Pittsburgh Pirates grabbed third with a 2 to 1 triumph over the Boston Bees. Gus Suh's home run in the ninth broke up a pitching duel between Red Lucas and Danny MacFadden. Lucas fanned six to register his sixth victory of the year.

Cincinnati's Reds won their fifth straight game, an 11 to 6 decision over the Philadelphia Phillies, to pull up within a game and a half of the first division. Glacier Priest  
Is Annoyed By  
Dog Protests

SEATTLE, June 26.—UP—The Rev. Bernard R. Hubbard, famed Glacier priest of Santa Clara University, Santa Clara, Cal., said today that hereafter he would give Seattle a wide berth on his trips to Alaska and sail for Vancouver, B. C., instead, due to vigorous protests by residents here against the barking of his husky dogs.

Three of the dogs were kept in a lot adjoining Seattle College and neighbors complained to the police that the barking disturbed them.

The keeper said he slept with the dogs all night to keep them quiet and they barked only once when some other dogs came near them.

"This is the second time Seattle has made a fuss about my dogs and I'm going to ship out of Vancouver next year," Father Hubbard said heatedly.

FRIEND TELLS  
JURY OF SNAKE  
DEATH KILLING

LOS ANGELES, June 26.—UP—Lawyers for Robert S. James, accused "Blue Beard Barber," today started the job of prying loose nails of testimony which Charles S. Hope, his helper in the "rattle-snake killing" of Mary Busch James had driven into the barber's scissor.

The whole force of defense attack was leveled at Hope, only eye-witness to the death scene in which James' young bride—his seventh wife—was roped to a table, her foot shoved into a box containing a live rattlesnake, and finally placed in a bathtub to drown.

**HEARS STORY**  
While the red-haired barbershop Casanova sat in his chair, his chin in one fist, calmly watching his former friend tell details of the killing, James' lawyers hammered throughout a sweltering day of cross-questioning, trying to tear loose the framework of Hope's story.

They tried to prove two things: First, that Hope, not James, actually carried out the bizarre death plot, presumably for \$100 which he said James gave him.

**INSANITY PLEA**  
Second, that James did not know the rattlesnakes, which Hope said he bought for him, were deadly.

Unless the defense can shake Hope's story, it is believed James' only chance to escape the gallows will rest on an insanity defense.

The stocky ex-sailor, his face seldom turned toward James, for the third time went through a detailed recital of the killing—a story so brutal that yesterday it sent him stumbling from the witness stand.

**HOPE QUESTIONED**  
Only one significant flaw seemed to have been uncovered in Hope's story—a question as to whether Mrs. James' mouth and eyes were

Mrs. Hewitt To  
Face Court In  
About 10 Days

JERSEY CITY, June 26.—UP—Physicians indicated today that Mrs. Maryon Cooper Hewitt, defendant in a \$700,000 San Francisco sterilization suit and indicted in the western city on charges of conspiracy to commit mayhem in the same case, would be released from Jersey City medical center within a week or 10 days.

She will face immediately extradition proceedings seeking to return her to San Francisco to face the court actions.

Nurses said Mrs. Hewitt, internationally known hostess, was confident the charges against her would be disproved.

She was named a defendant in a suit filed by her 21-year-old daughter, Ann Cooper Hewitt, who alleged she had been sterilized without her permission or knowledge.

San Francisco authorities later brought the criminal charge against the mother and two doctors. The mayhem case is scheduled for trial in August.

BRITISH FEARS  
OLYMPIC TEAM  
WILL BE WEAK

LONDON, June 26.—UP—Britain's track and field athletes are fast breaking into form for the Olympic Games, but none as yet shows real class.

The feature of the season so far has been the comebacks by a number of veterans such as J. P. "Jerry" Cornes, F. F. Wolff, G. L. Rampling and E. I. Davis.

Already Cornes has hit 4:22 for the mile; Wolff 49 for the quarter; Rampling 22.3 for the furlong; and Davis a fraction over even for the century.

True, these times do not nearly measure up to Olympic standards, but the quartette is regarded as the nucleus of Britain's team, around which will be built a squad of strong middle-distance runners and average sprinters.

The sprinters are likely to come from such youngsters as A. W. Sweeney, G. T. Saunders, C. B. Holmes, A. Pennington, M. M. Searr, E. L. Page, K. S. Duncan and C. A. Ward. Sweeney lost his first last season, but his starts this season indicate that he is coming back to form. His best for the century, however, is 9.8, which is unlikely to earn him even a place at Berlin.

**OXFORD MAN IN FURLONG**  
Pennington, Oxford University sprinter, seems to be the choice for the furlong. He showed consistently good form at the end of last season.

Among the quarter-milers, however, it is different. Britain, according to its own standards, has never had such a great string.

A. G. K. Brown, W. Roberts, Rampling, Wolff and Pennington—if he goes for that distance have triumphed 49 seconds, and barring accidents should be beating 15 for certain before August.

In the United States, however, 18-second quarter-milers are "two for a dime," and it is likely that even 47 will not be good enough in Berlin.

If one of these British runners can turn in 47 during the season here, British chances would be considerably enhanced for the Olympic 400 meters, for in this climate such time takes a lot out of a man. W. Stalwell, who won the Olympic 400 in 1908, had a British record of 48.4, which stood for 22 years until Rampling won the Empire title in 48 flat in 1931.

**ROBERTS NOT STRAIGHT**  
It is a tossup between Roberts and Brown as the best of this bunch. Roberts only knows one way of running a race—"flat out"—and it is possible for a stranger and less reckless runner like the respected Cambridge University record breaker, Brown, to wear him down.

Rampling is a mystery. He never looked fitter than he does now, and he is sprinting faster than ever but it is a question if he has enough distance work behind him for the 400.

Without the speed men of past years to maintain Britain's unbeaten post-war Olympic record, the 300 meters, hitherto regarded as one of the Old Country's prerogatives, is likely to go elsewhere.

Reports of Jack Stothard since he left Cambridge are not encouraging. R. Scott seems liable to injuries. J. V. Towell always seems to fall in a crisis. And J. A. Cooper does not always seem to have his heart in running. Otherwise these half-milers could match up with the world's best.

Cornes and S. C. Wooderson, the reigning amateur champion, are choices for the 1500 meters. Wood-

NEWMAN, Cal., June 26.—UP—Physicians tonight fought to save the life of Marian L. Hauser, 40, Newman chief of police who was shot down while attempting to capture single-handed a former asylum inmate who terrorized motorists by threatening them with a 30-30 rifle.

Two blood transfusions were administered Hauser, whose condition was reported as "very grave" by Dr. F. R. Delaphe, Modesto, attending physician. ## HOW IT BEGAN By Paul F. Berdanier

**INFANTRY**  
LATIN "INFANS" MEANT LITERALLY "A BABE" (NOT SPEAKING) FROM LATER ITALIAN "INFANTE" (FIRST "A CHILD" AND LATER "A SERVANT") CAME THE MEANING "SQUIRE TO A KNIGHT." HENCE THE MODERN WORD "INFANTRY" FOR A BODY OF FOOT SOLDIERS.

## DANCING DOLLS

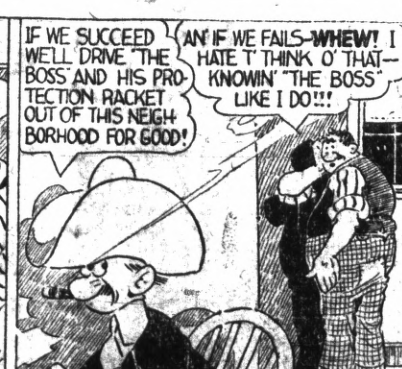

DANCING DOLLS ARE NOT A MODERN INVENTION. THE FIRST ONES WERE MADE BY THE EGYPTIANS ABOUT 2000 B.C. THEY WERE OF IVORY CARVED TO REPRESENT AFRICAN PYGMIES, AND WERE MOUNTED ON AN IVORY BASE IN SUCH A MANNER AS TO BE MADE TO DANCE.

Millions prefer it to any other dressing!

Finer Ingredients!  
A new type of recipe!

## The DAILY WASHINGTON MERRY GO ROUND

PHILADELPHIA, June 26.—A

subject very much on the lips of the crowds that mill through the hotel lobbies and the convention hall this week is Big Jim Farley.

"The Three-Job Man," as he has been nicknamed by Republican sharpshooters, is the ringmaster of the show. Everything revolves about Farley, gladhanding Jim. But that is not the reason he is such an ardent subject of conversation.

What's on the minds of the boys from back home, who will have to drum up the voters, is what Jim—and the President—are going to do about those three jobs he is holding down: Postmaster General, National Chairman of the party, and New York State Chairman.

Jim has become a major issue in the campaign, and nobody knows it better than the local leaders. The Republicans, among others, have not let them forget it. They are concentrating a raking fire on Big Jim—on his three-job role, his patronage operations, his Tammany connection, and his recent inept crack about Landon being just the Governor of a "typical Parlo State."

REPUBLICAN PRECEDENTS  
Jim is not the first man to be simultaneously Postmaster General and National Chairman of a political party. He has a long line of Republican and Democratic predecessors. And the patronage operations of Walter F. Brown, Hoover's Postmaster General and campaign manager, were as blatant as anything Farley has pulled.

Brown, addressing a convention of postmasters early in 1932, bluntly warned them that if they didn't get out and work for Hoover, they would be replaced by others who would. But the voting public is notoriously shortsighted, and all that is now forgotten.

The Republican strategy of making Big Jim a major issue in the campaign is worrying Administration generalists.

Privately they consider Farley a necessary party adjunct, and say bitterly that if Landon should gain the White House, John Hamilton would soon be emulating Jim down to the last detail. But they recognize that Jim is not a feature of the New Deal to parade before the country.

Farley is very popular personally among the Democrats, and most of them think he has done a swell party job. But they don't want his big, bald, gum-chewing visage as an issue.

Two years ago, when the President forced various high Democrats from the National Committee because of their lobbying activities, he also indicated that Farley would shortly undergo a change in status. But the weeks ran into months and the months into years, and Jim has continued to wield his triple scepter.

There are two reasons for this: (1) Jim is proud of his Cabinet post and hates to give it up; (2) the President has had difficulty finding another man of the kind he wants to fill the place.

Administration insiders are predicting privately that by the time the campaign gets under full blast, Farley will be out of the Cabinet, retaining his National Chairmanship.

Jim, asked about this, merely smiles amiably, and says: "No objection to anybody guessing. How you coming?"

TALMADGE-HITLER  
The Georgia delegation, 100 per cent pro-Talmadge, and 150 per cent anti-Talmadge, brought to Philadelphia a new story about their red-glazed State Executive.

A visitor recently called on Talmadge, according to this story, and the talk turned to books. The Governor said he wasn't much of a reader.

"I haven't the time," he explained. "I've been book mighty busy. But there is one book I did take out time to read. It's Hitler's autobiography, 'My Fight' (Mein Kampf). That's some book. Have you read it?"

"No, I haven't."

## NEW YORK INSIDE OUT By DON O'MALLEY

NEW YORK, June 26.—George Blumenthal, famous Broadway showman, has been down and out all in his biographical record, "Sixty Years in Show Business."

Blumenthal was for many years associated with the late Oscar Hammerstein, and he devotes some sparkling pages to a chronicle of 90 years' unparalelled life. One of the quips he recalls occurred shortly before Hammerstein opened the Manhattan Opera House.

"What are you going to open with?" asked an eager newsmonger. "With debts," replied the impresario promptly.

And on another occasion a friend asked the fabulous Oscar: "Mr. Hammerstein, is there any money in grand opera?"

"Yes," replied Hammerstein quickly. "Any money is in it plenty!"

Hammerstein, however, was more than a mere joke. He gave the safely-entrenched Metropolitan Opera the only real competition it had in its thirty years' existence. For several seasons, beginning in

1909, his rival attractions had the Met officials worked to a fine state of jitter.

At the end they paid Hammerstein more than a million dollars for his promise to fold up and stay away from New York.

The city's business tax records have jumped \$500,000 over last year. As a matter of fact, I've noticed for some time that local merchants wail and moan a good deal less than they used to.

Major Alfred K. Baughman, who at one time was in charge of WPA efforts to place workers back in private industry, is out of a job. Not only is the major without work, but he and his family are on their feet over in Brooklyn.

The radio companies frequently run into muddy water when they bring on celebrities for public interviews. They got Jimmy Braddock, heavyweight champ, before a microphone the other night, and the fighter was so mixed up that he couldn't read the script in front of him. Braddock didn't look nervous, but the paper in his hand

shook like a leaf in a storm—I got the surprise of my life when Harriet Hilliard came on for the current stage show at the Paramount Theater. In the films Harriet looks soft, sympathetic and wistful. In person she's sophisticated (red hair) and night-clubbish. The new W. C. Fields picture, however, still shows the veteran comedian as one of the most lovable actors on or off the screen.

DOUBLING—Eddie Cantor has been telling jokes on the scribbling clan. The other day he broadcast an item about one of his daughters, who was rapidly reading a Broadway column.

"Look," she exclaimed: "This columnist says he's in one place at 3 A. M., another at 4 A. M. and another at 5 A. M. When does that man sleep?"

It took but a second for another Cantor daughter to reply: "When he writes!"

BIG SHOTS—It's always amusing to stroll through the city's foreign quarters and observe how the local denizens dress when they want to look important. Down in Chinatown along Mott street, of an afternoon, the prosperous merchants walk about with huge cigars in their mouths, but in shirt-sleeves and with their vests open at the front.

Hands in pockets, they saunter along complacently, the Oriental calm on their faces in striking contrast to the disarray of their attire.

## ACTION HITS TO FEATURE THE SUNDAY BILL

A screenload of stars brings two action hits to the Fox Theatre tomorrow when Fred MacMurray, all Carole Lombard will be seen in a wise-cracking comedy, "The Princess Comes Across," and "The Wise Guys" also take possession of the screen with a cast which includes Robert Young, Betty Furness, Raymond Walburn, Thurston Hall, Bruce Cabot, Donald Mack, Herman Bing and Harold Stephens.

MacMurray and the "blind man" promise romance and thrills in a picture that is said to be everything for joy, wise-cracking, and complicated situations. The action of the story is said to be a luxury liner where MacMurray, a concertina-playing leader of a band, pursues Miss Lombard who is masquerading as a Swedish princess. In addition to his hilarious qualities, the story has suspense, music and romance in generous quantities.

THE SCHOOL VACATION

During the school vacation period of approximately three months, you should allow your child to forget about his studies and develop as much as possible in a physical direction.

You are, of course, anxious that your child learn rapidly, but remember that the child can learn things from nature which cannot be obtained from books.

Many parents make the mistake of "cramming" children at the expense of their nervous system, and the children look pale and are irritable and obviously worn out.

There is a grave danger that many of our children are placed on too much of a strain during the school year. They often detest many of the studies but are nevertheless forced to remain in the classroom for six to eight hours, and a pernicious practice is carried out of having them take home extra work requiring two or three hours to complete. Such training continued for any length of time without proper methods of recreation is certain to produce results which are undesirable. It is certainly carrying the "cramming" too far to insist upon having the child study during the summer months.

This is a wonderful time of the year for recreation and intensive cultivation of the physical body. Give the children a chance to be out in the sun and take plenty of exercise through such games as tennis, horseback riding, swimming, boating, hiking, baseball, etc.

Let them romp and play to their heart's content, even if they are a little more careless with their clothes and personal appearance. You must realize that your child is a growing individual who has probably been pushed beyond his mental capacity, and you who find so much good from a vacation in the woods must realize that your child should be allowed to go back to primitive enjoyment for at least two or three months if you expect him to regain the strength of body so necessary for the coming term of school, with its many responsibilities and unnatural mental strain and tension.

It is a good plan to teach the child to excel in various kinds of athletic games, checking up on his activities and commenting on them at the end of each day. Praise and encouragement and possibly even prizes should be given for proficiency in winning physical contests. Children who are encouraged in the right direction toward wholesome exercising are greatly helped in laying the foundation for sound health. During the summertime you will also be able to regulate your child's diet more carefully than when the problem of school lunches had to be handled. Let the child eat at home whenever possible that he may be assured of good and wholesome food.

QUESTIONS AND ANSWERS

(Sauce for Vegetables)  
Question: Mrs. Martha T. asks: "How can one prepare a palatable sauce for green peas without discarding the juice, and without making a 'worn' combination?"  
Answer: A palatable sauce can be made by adding cream and butter to the desired amount of juice and thickening with little dextrinized or toasted flour.

(Mixed Vegetables)  
Question: Mrs. Fred B. asks: "What vegetables may be eaten at the same meal, and what does the word 'protein' mean?"  
Answer: All non-starchy vegetables may be mixed together at the same meal. A protein is a certain complex combination of carbon, hydrogen, oxygen and nitrogen, with a larger amount of nitrogen than found in most other foods. Some foods containing a large amount of protein are meat, fish, eggs, nuts and cheese.

(Ringworm)  
Question: Mrs. Harry I. asks: "Will you kindly tell me through your column the cure of ringworm? Will a mercury ointment applied twice daily be effective?"  
Answer: The remedy you ask about will be effective in stopping a case of ringworm, but to prevent further trouble it is well to remember that those who are the most subject to such infections as ringworm usually have a systematic acidosis which makes them unusually susceptible. Such acidosis can be cured through using well-balanced meals. In my own practice I have found local treatment of the affected area with the actinic ray is followed by good results.

## Famous Saga Of Southern Seas On Theater Bill

Pointing her sturdy prow into the Pacific ocean, H. M. S. Bounty, an exact replica of the famous mutiny ship of 150 years ago—faced her first camera barrage in a severe storm for scenes in the Metro-Goldwyn-Mayer sea drama, "Mutiny On The Bounty," coming to the Richmond theatre tomorrow and Monday in conjunction with Dick Foran, the singing cowboy, in "Song of the Saddle."

For two months the Bounty, strained at her hawsers, and awaited the storm when was required for thrilling, realistic scenes in the picture.

Then, after a long vigil, storm signals came flashing down the Pacific Coast from Vancouver. Already a week's provisions had been stored aboard, and with the first flash of the oncoming storm, Director Frank Lloyd and his camera and sound crews were hustled out of their beds at midnight for a dash to Los Angeles harbor.

With overcast skies growing more sullen, director and crew clambered aboard H. M. S. Bounty. Salty and old sailors unfurled the canvas and the new "mutiny" ship headed for the storm.

"Mutiny On The Bounty," produced by Irving G. Thalberg, has a notable cast headed by Charles Laughton, Clark Gable and Franchot Tone, also fifty other featured players.

On the Richmond screen for today only Victor Jory and Florence Rice are seen in "Escape From Devil's Island." The second feature on this program stars Betty Burgess, Johnny Downs, Jack Haley and Andy Devine in the musical comedy "Coronado."

"Phantom Empire No. 1" a new sensational thrill serial starts today. A silly symphony cartoon and Paramount news complete the program.

A continuance performance will be run today and tomorrow with the admission price 15c till 5 p. m.

## GOV. LANDON IS ENJOYING REST ON BIG RANCH

ESTES PARK, Colo., June 26.—UP—Governor Alfred M. Landon of Kansas, Republican presidential nominee, made it plain at his press conference today that he wanted to forget politics for the next 10 days and be known as "just a vacationist."

When asked if he had any comment on the Democratic platform adopted at Philadelphia, Landon replied, "I may drive over to Grand Lake next week, if any of you fellows want to go."

Several minutes later when asked if he had been reading accounts of the Philadelphia convention Landon replied abruptly: "I think I said once before that I don't care to discuss those matters."

Landon said he arose at 6 a. m. today and went fishing in Cow Creek which runs through the 1200-acre ranch where the Landon family is vacationing.

"I fished from six to eight o'clock," he said, "and caught three rainbow trout."

When asked how large the fish were, Landon replied: "Just about the limit."

The limit in Colorado is seven pounds.

Landon was driven to Estes Park from the ranch this afternoon by his daughter, Peggy Anne. They were accompanied by another son, by two Kansas State highway patrolmen who have been detailed to the ranch.

The Republican nominee was dressed in the same outfit he wore yesterday, tan boots and whipcord breeches gray shirt open at the collar, and a leather jacket.

He appeared in excellent spirits, asked solicitously how the newspapermen were enjoying Estes Park and said he was "getting a wallop" out his leisure time.

# NEW CONN STORE OPENS TODAY

## DRUG FIRM OPERATED BY LOCAL MAN

Opening today of the new Conn Drug Company store at Twenty-third street and Macdonald marks another step in the history of the successful local business enterprise.

Founded by a Richmond man, the Conn Drug Company has won for itself an enviable record in the annals of business in the bay area.

### LOCAL RESIDENT

Elmer G. Conn, the owner of the successful business is a "local boy" who made good in his own city. Mr. Conn has spent most of his life in this city. He is a product of the local schools and is a graduate of the Richmond Union high school.

Mr. Conn attended the College of Pharmacy of the University of California and was graduated in 1920. Immediately after, he entered the employ of a Point Richmond drug store.

### FOUNDED IN 1924

In 1924 he decided to branch out on his own and opened his first store. It was located at 2228 Macdonald avenue, a small building now operated by a bicycle repair shop.

For two years Mr. Conn operated in the small store building. During this period business progressed so rapidly that he was forced to lease larger quarters. In 1926 he moved to 2234 Macdonald avenue where he opened a modern store.

### OPENED SECOND STORE

Within a year his business had grown to such an extent that he increased his activities and opened a second store. This is located at 938 Macdonald avenue in the heart of the business district. This store is one of the most modern in the city.

Now, after operating for ten years at 2234 Macdonald avenue, Mr. Conn has again moved his place of business to a larger and more modern location. Friends declare that the new store should prove even more successful than the old.

### LOCAL ASSISTANTS

Clarence Cain is the manager of the new store. Mr. Cain, too, is a local resident. He graduated from the Richmond Union high school and attended the College of Pharmacy at University of California. Cain is prominent in local lodge activities and is one of the leading amateur magicians.

Assisting Mr. Cain will be Robert Reid, a graduate of the Richmond Union high school and a graduate of the U. C. pharmacy school. William White, who is assistant manager will divide his time between the Tenth street and the Twenty-third street stores. Mrs. Mildred Jackson will have charge of the newly equipped soda and ice-cream fountain.

In addition to those named above, Mr. Conn also employs Miss Pearl Terry at the Tenth street store. Two delivery boys are also employed by the firm.

Friends and well wishers of Mr. Conn have united in their praise of the business acumen of the owner of the company and have extended their best wishes for continued success.

## Local Labor Was Used On Conn's Store

When the new Conn Drug Company store at Twenty-third street and Macdonald avenue was remodeled, a number of Richmond contractors were employed on the job, according to W. A. Hislop and Ben Malik, owners of the building. J. A. (Pop) LeGault, of 420 Thirty-first street, was the general contractor and was responsible for the carpenter work.

Plastering work was done by Charles G. Doty while the Pacific Electrical Manufacturing Company had charge of the installation of the electrical work.

E. C. Crane laid the linoleum and the Mayfield Paint and Glass company installed the glass. J. L. Roark had charge of the painting and Spiersch Brothers installed the plumbing system.

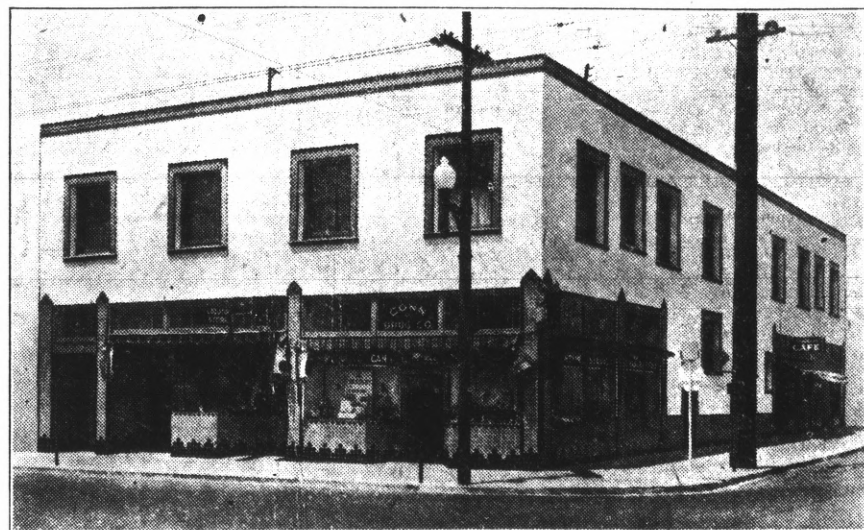

P. J. Kooyman, of Alameda, had charge of the tile work.

## Many Features Will Be Offered At Formal Opening Of New Store

Elmer Conn, owner and operator of the Conn Drug Company yesterday issued an invitation to all residents of the city to inspect the new store at Twenty-third street and Macdonald avenue.

Many features for the opening have been announced by Mr. Conn. A representative of a candy company will be at the store from 10:20 until 8:30 p. m. and will give a demonstration.

In addition the store is giving away a pint brick of ice cream for one cent with every purchase of 50 cents or more. Children will re-

## Sacramento Man Is Injured In Crash

WOODLAND, June 26.—UP—Harry L. Allen, 60, Sacramento, was recovering in a Woodland hospital today from injuries received when a

car driven by Frank M. Dormond, Oakland, struck him while he was walking on the Davis-Dixon highway five miles east of Davis.

Dormond's automobile, diverted by the impact, skidded into a ditch and plunged through a fence, wrecking it. Dormond was uninjured.

Many bargains in drugs, candies, toiletries, every-day health needs, dental needs and other sundries will be offered to the thrifty citizens of Richmond.

## BUILDING IS STRIKING IN APPEARANCE

Richmond today will welcome one of the newest additions to the rapidly growing Twenty-third street district when the new Conn Drug Store is formally opened at Twenty-third street and Macdonald avenue.

The store, which is owned and operated by a local concern employing local people, is one of the most modern of its kind in the bay region.

### STRIKING INTERIOR

The building was formerly occupied by a bank and it has been completely renovated and remodeled by the owners, W. A. Hislop and Ben Malik, at a cost of almost \$5,000.

The exterior of the building, which was formerly of a dark, reddish color, has been completely changed. Application of a white, stucco finish, plus the use of decorative tiles have made the building one of the most striking business locations in the City of Richmond.

### NOVEL NAME PLATE

The name of the Conn Drug store has been placed on the Twenty-third street side of the building. The name plate is made of black tile, manufactured by the California Art Tile Company and the black letters make a striking contrast against the white walls of the building.

The spacious interior of the store has been carefully planned to

## YOUR GOOD HEALTH

Doctors Can't Wipe Out Cancer Until Victims Overcome Fear, Says Dr. Chrisman

By CLAUD NORTH CHRISMAN, M.D.

WE CANNOT eradicate cancer until we have taught people not to fear cancer. But they must not neglect a cancerous condition until it has become incurable.

Cancer is curable in its early stages. We all speak of it as a disease of advanced years. It does occur much more frequently after the age of forty, but it occurs sometimes in children, and even babies. It should always be suspected when an unusual growth or discharge exists in any place in the body.

Neglect of cancer is the dangerous thing, not just having it. Last summer a man came into my office with a large cauliflower-looking growth on the back of his neck, larger than a silver dollar. He stated that he had no pain, but it was very bothersome and the discharge disagreeable.

I asked why he had delayed so long. He answered that he "was afraid it was skin cancer." All the more reason for attending to it! After thorough examination, and finding no other trouble, I said, "You have a skin cancer," and before he could gasp, I went on to say, "X-ray will cure it in six weeks."

### Cure Easy at First

He didn't have any faith, but he did as he was told, and last week he came in feeling happy and stated that if he had known the cure was so easy, he would never have tolerated the discomfort for two years. He was fortunate that there was no apparent spread to other parts.

Almost everything has been blamed as the cause of cancer: certain foods, certain climates, old houses or dampness, cold, dryness and even the neighbors. Food and climate have nothing to do with it. Accidents or injuries are seldom a cause. Wounds and fractures are not the beginning of cancer. Slight irritations, so slight as not to be recognized, extending over years, may be the exciting cause. A poorly fitting dental plate, a jagged tooth, a rubbing corset, a rasping collar, scars and wounds of the skin, a chronic irritation of the lip, nose or tongue, are more frequently the cause.

### Pastes Are Dangerous

Cancer cures are almost as numerous as the cases. Almost every known drug and countless treatments have been administered as cures. Also serums and injections, all guaranteeing a cure are advertised. But you pay in advance and the guarantee is never negotiable. Pastes, plasters and caustics have been used. They all cause more irritation, a cure is never more than a temporary relief. They have done more harm than good. True, a caustic will destroy a skin cancer, sometimes, but if it is strong enough to accomplish its purpose, it will destroy good tissue as well and leave a more unsightly scar than surgery or X-ray. Besides, the pain is continuous for weeks, and only good luck sometimes prevents it from destroying healthy tissue. An operation or the proper use of X-ray or radium is under the control of the operator and the pain is negligible or of short duration. The popular belief that the cancer may be driven to other parts of the body is entirely wrong. Of course, by delay cancer may be carried to other parts of the body and developed there, but it is not due to the remedy. The spread has taken place before anything is done.

## Modes and Manners

QUESTION: "In setting the table, if two glasses are used at each place, how should they be placed? One is a water glass, the other a wine glass.—Mrs. K. P."

ANSWER: Place the water glass at the right of the cover, at the point of the knife. The wine glass should be placed just below the water glass and a little to the right of it.

QUESTION: "Should bread and butter plates be included in the table service for a formal dinner?—R. M. Y."

ANSWER: No, a square of bread or a dinner roll should be covered with the dinner napkin and laid above the plate. As butter is not served at formal dinners, a butter knife won't be needed.

QUESTION: "I should like to give a dinner for a friend and her husband on the dinner from a wedding trip. Is this in order?—Miss H. D."

ANSWER: It is perfectly correct providing that you pay the newlyweds a first call. A bride is not supposed to call on friends or accept invitations from them until they have seen her in person.

## Profiles For Today

### New Golf King Wears Crown Modestly

By TALBOT LAKE

THE one word that fits Tony Manero, the newly crowned U. S. Open golf champion, is modesty. He is actually hesitant about asking Gene Sarazen, the former champion, to go on an exhibition tour with him because he feels that he may not play well enough for Sarazen.

He doesn't believe that the title of champion entitles him to any prerogatives. Because he promised he would play in the Open at Shawnee he played in it, although he wanted to run home to Elmford, N. Y., where he could present his mother with \$500, her half share of the Open purse. He promised to share it with her if he won.

Tony started in golf as a caddy. In 1926, when he was twenty-one, he was appointed starter at the Fairview Golf Club near his home. Next year he was promoted to be general handyman to J. R. Inglis, club professional.

In 1931, Tony was ill, and was unable to play the game he loved for a long time. In 1932, when he was feeling better, he took up the comparatively light work of operating a driving range at Mammoth.

Fortune at last smiled on him in 1933. He received an offer from the Greensboro, N. C. club to act as professional there. He still holds that job. It pays well and permits him to take the winter tour of golf matches. He has usually managed to win enough prize money to pay his expenses.

When he won the championship at Baltusrol, Tony had no inkling that he might win till the fourth hole of the final round. Even then he wasn't sure. He plugged along against strong competition and dropped a five-foot putt on the eighteenth green for a record-smashing total of 282. This record out "Light Horse" Harry Cooper, who finished twenty minutes before, by two strokes. In his final drive for the title, this Italian-American ace earned a magic 67, an amazing feat under the heaviest pressure golf can bring on a player.

## Give Feet A Pedicure Each Week

By JACQUELINE HUNT

ALL of us give considerable time and thought to the care of hands, face and hair, but unless we happen to be going to the beach or getting ready for a party, we pay little attention to the appearance of our feet.

When they hurt, of course, we do something about it, but a little time devoted to the care of the feet and to a pedicure once a week will pay big dividends in foot comfort. In addition, your feet will be so pretty that we needn't hesitate a minute to expose them in cool, comfortable open sandals or when we want to go barefoot at the seashore.

It is fun giving yourself a pedicure. You follow much the same procedure as you do with the fingernails, but it is ever so much easier since you have both hands free to work with.

Begin with a warm soapy bath and rinse. While the feet are still warm and slightly moist,

apply a cuticle remover or cuticle softener and leave it on a minute. Use an orange stick to push back the loosened cuticle if you use the remover. The softener, which is a kind of creamy soap, is scrubbed off with liquid water and a hand brush. In either case, rinse the hands in warm water and dry with a soft towel, wiping away the dead cuticle and shaping that which frames the nails.

Dip your orange stick in cuticle remover, wrap the end in a tiny piece of cotton and again in cuticle remover, and use to cleanse under the nail tips. Never use a file or sharp pointed instrument in this delicate area.

Now if you have time for a deluxe treatment, pour a little cuticle oil into a saucer, warm slightly by setting in hot water, and into it dip thin pieces of cotton. Wrap each toe in the oil-soaked cotton as you finish each nail. Leave on for ten minutes or more, then wash the toes again in warm soapy water and dry thoroughly.

You are now ready for your polish. And it is fun to keep your toenails polished even though they are the only one you see them. Use the same shade you do for your fingertips if you wish, or use a gay, brighter color. I personally like to use an orange stick to apply the polish with side to side strokes of the brush. With the first stroke you circle the half-moon and with the last you expose just as much of the white rim of the toenail as you wish. Use an orange stick to remove any of the polish that runs into the grooves at the sides of the nails.

When the enamel is thoroughly dry, apply softening cream or a good hand cream to the feet, ankles and legs. Just a tip—when you are sunning yourself at beach, remember that your feet and legs will take about twice as much sun as the rest of you before they acquire that enviable golden tan, that is so popular this season. But use your suntan oil on them, too, since a burn is just as painful there as anywhere.

If you want to go stockless with your evening sandals, there is a delightful powdery liquid called a "make-up film" that will take away that naked look. You can also use it if you do not want your legs to tan while you are at the beach.

## Beauty Tips

QUESTION: "I am only 17 and am nearly 30 pounds overweight. Since I am only 5 feet tall, this makes me look ugly and dumb. I would like to reduce a lot, but I am afraid it might make me look older. What do you think?"—Unhappy."

You are much too much overweight and you should do something about it at once. Consult your family physician and have him recommend the right diet, medical treatment and exercise for you. If you reduce gradually, there will be no using effects but you will probably look even younger. I know you will feel better and be less self-conscious about your appearance.

All of you know how exasperating it is to struggle through the sundry things that accumulate in your pocketbook in an effort to find your compact, lipstick, eye-brow pencil or comb. Well, there need be no more hunting, since some kind soul has created a little bag to keep them in. This neat little bag holds your powder or compact, lipstick and whatever cosmetics you use regularly. You can be sure that there will be no more spilled powder to get all over the other articles in your pocketbook. The cosmetic bags are closed with clever slide fasteners and come in gay colors in heavy satin or moire.

## For Teas and Lawn Parties

What could be more appropriate for afternoon wear than the two gowns shown here? Field flowers in brilliant coloring are scattered over a white background in the attractive dress of silk linen shown at the left. Flowers cut from the print are applied on the collar, cuffs and pockets. The belt is blue leather. At right, a bright red and white jumper frock of cotton challis. The gimpie is white organdie with a red sash. The hat has a wide brim of white felt and a red straw crown.

Follow your favorite recipe for rich, fluffy biscuits or use one of the prepared biscuit mixtures. Roll into a rectangle about 1/4 inch in thickness. Spread with softened butter, sprinkle thickly with brown or maple sugar and cinnamon. Roll like a jelly roll, cut into slices 1 inch thick. Bake in a hot oven about 15 minutes or until well browned. Brush with melted butter or cream before taking to the table to give a glossy finish.

Cook until creamy, stirring continuously. Be careful not to overcook. Keep warm over hot water if necessary. This makes 3 servings.

#### Eggs in Tomatoes

Scop out the centers of ripe but firm tomatoes. Sprinkle the inside with salt and pepper. Add a small lump of butter and a few bread crumbs. Break a raw egg into each tomato. Sprinkle with a few more crumbs and dot lightly with butter. Bake in a moderate oven about 15 minutes until the egg is set. This is also nice for luncheon.

#### Swiss Eggs

Break as many eggs as wanted into individual baking dishes that have been well-buttered. Pour a tablespoon of cream over each egg, sprinkle with salt and pepper,

## OLD PEOPLE find way to keep breath wholesome

Halitosis (bad breath) quickly yields to Listerine, safe antiseptic and deodorant

Either because of stomach disturbances, food fermentation, or the wearing of false teeth, old people frequently have halitosis (bad breath). No wonder others consider them a nuisance.

But now Science has found that the regular use of Listerine will often overcome offensive mouth odors due to the fermentation of tiny bits of food on mouth, teeth, or dental plate surfaces.

This safe antiseptic and quick deodorant works quickly. It cleanses mouth, teeth, and gum surfaces. Halts fermentation and putrefaction, a major cause of odors, and then counteracts the odors themselves.

Try using Listerine every two or three days. See how much more wholesome it leaves your mouth. How it sweetens your breath. Lambert Pharmaceutical Co., St. Louis, Mo.

## Contract For Oil Pipe Line To Martinez Let

SAN FRANCISCO, June 26.—UP—Shell Oil Company today awarded contracts on a \$4,000,000 project which will include the construction of a 300-mile pipe line from the Bakersfield oil fields to the Martinez refinery and shipping centers.

The line construction contract went to Lindgren and Swinnerton, Los Angeles and San Francisco firms, with instructions to start work August 1, and complete it within 90 days.

Other contracts went to western steel firms for 25,000 tons of pipe. Alfred Swinnerton, representative of the contractors, said 500 men would be hired at Wilmington, Bakersfield, Caloia, Corral, Martinez, Meganos and Stockton and construction work would be carried on simultaneously at Martinez, Meganos, Bakersfield and Caloia. Actual construction is expected to start July 20 when the fabricated steel pipe will be ready.

## Bridge Builders Are Lashed For Lack Of Safety

SAN FRANCISCO, June 26.—UP—Condemning the "steel interests" for their failure to provide safety nets for workers on the Golden Gate bridge, A. R. O'Brien, Ukiah publisher and a member of the district bridge board, said today the bridge board would carry an appeal to the U. S. Department of Labor to force erection of the safety devices.

"The steel corporation has gotten away without answering for the continued slaughter of men in its plants for a half-century," he said. "Just because they say they will not protect their workers is no reason for letting them get away with it."

Construction to date on the Golden Gate bridge has been unmarred as yet by any deaths but 22 workers have lost their lives already on the San Francisco-Oakland bay bridge.

## Pension Plan Turned Down By Democrats

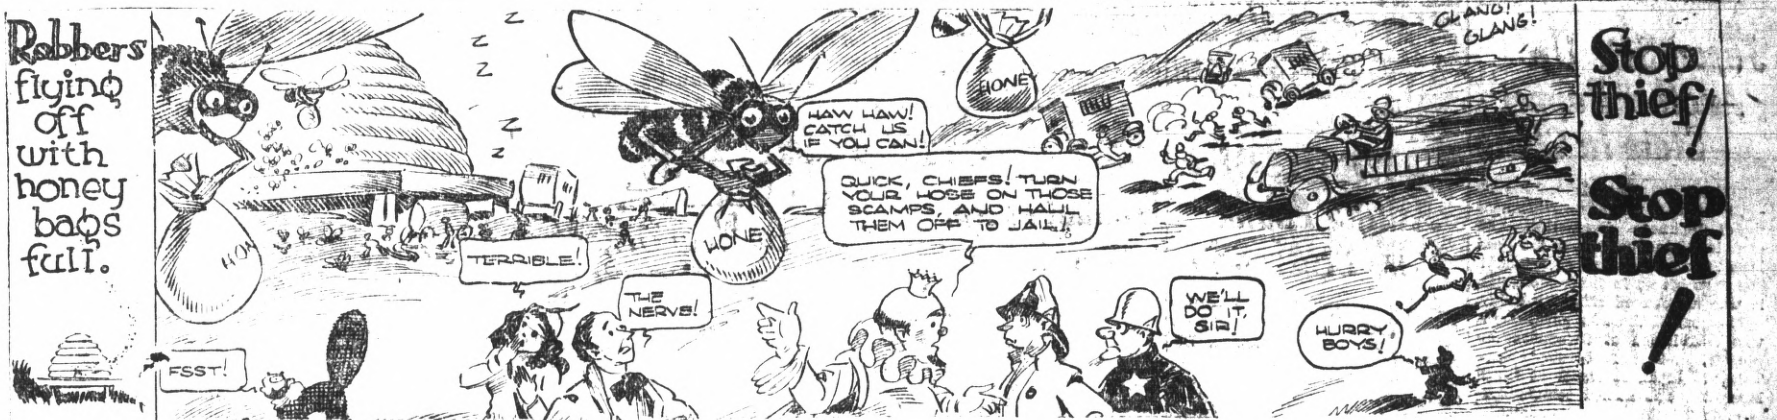

PHILADELPHIA, June 26.—UP—Western delegates lost their fight for inclusion of production for use and Townsend old-age pension plans in the Democratic party platform, publication of the adopted platform indicated today.

Washington state delegates offered the production for use plan and Arizona delegates sought to have the Townsend pension plan included.

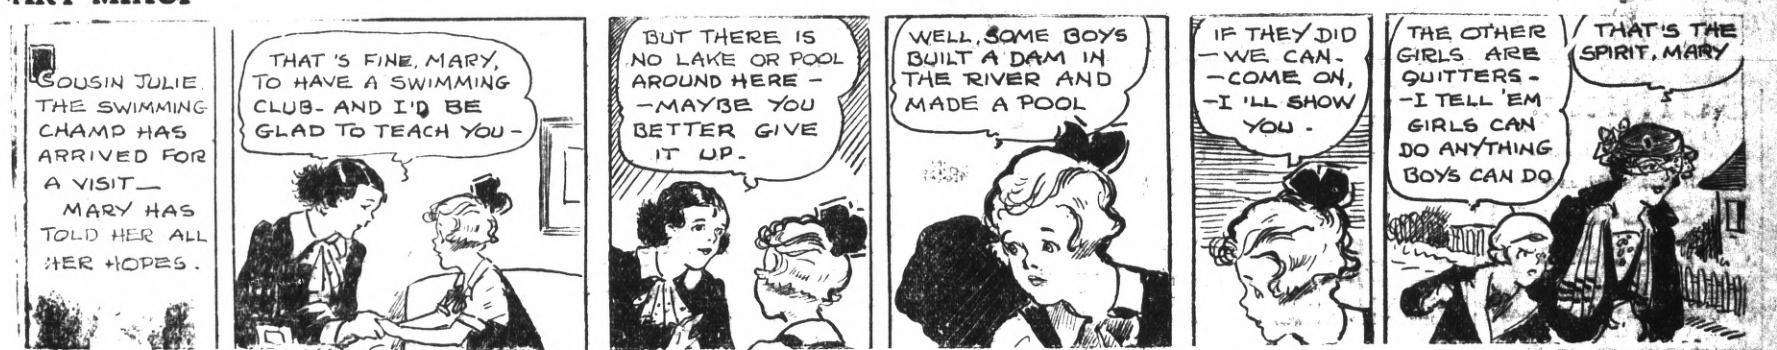

Strong pressure from administration leaders was believed responsible for the failure of the delegations to make a fight, in committee or on the floor, for the two programs. The administration spokesmen expressed a desire to keep the platform "brief," Washington delegation spokesmen explained.

## HEARING IS FIXED FOR JULY SIXTH

(Continued from page 1)

The filing of a bid by Perasso Bros. on June 8, 1936 is cited and it is alleged that Antonio Mazza did the same but that the city clerk and members of the Council refused to permit the bid to be filed.

It is further alleged that Perasso Bros. agreed to perform all and any of the services called for under the notice to bidders for a total sum of \$1.50 per unit and that Mazza's offer for the same service was \$1.04 per unit.

The Council threatens to enter into a contract with the Richmond Scavenger Company on the 29th of June to the injury of plaintiff and all citizens of Richmond and unless restrained, Robbiano contends, great and irreparable injury will result to the plaintiff and all other citizens of Richmond.

A permanent injunction is asked on the grounds that:

"The bid of the Richmond Scavenger Company was not the lowest; That the call for bids and the terms and conditions of the bids were unclear and ambiguous and provided a prohibitive amount as a guarantee of performance;

"That the terms of the bid prevented a fair and competitive bid; That the procedure adopted by the council in calling for bids and granting same was in violation of the Constitution of the State of California granting equal protection of the law;

"That Mazza was the lowest responsible bidder and entitled to the contract.

It is said that a similar suit will soon be filed by Attorney Leo Marcollo of Richmond in behalf of Perasso Bros., the unsuccessful bidder and present holder of the garbage contract.

Attorney T. W. Calfee of Richmond is the legal representative of Robbiano.

## CROWD HEARS DILL DIVORCE PROCEEDINGS

SPOKANE, Wash., June 26.—UP

—The housekeeping and clothing habits of Mrs. Rosalie Jones Dill, wealthy New York women's rights leader, today underwent scrutiny as former Senator Clarence C. Dill launched a parade of witnesses in his suit for divorce.

Chief witness today was Mrs. Margaret Lorenz, former maid in the Dills' palatial Spokane home.

"It took me a month to get the house cleaned up when I first came," testified Mrs. Lorenz. "The dirtiest place of all was Mrs. Dill's bedroom and bathroom. There were five or six rings around the tub. The six rings of them I burned. The bed sheets and pillows were filthy."

Questioned as to alleged slanderous statements made by Mrs. Dill concerning the former Senator, Mrs. Lorenz said Mrs. Dill had told her Dill was drinking heavily, was losing his mind, was blind and was going crazy. She also testified she heard Mrs. Dill telling someone over the telephone "he is crazy and losing his mind."

Judge W. A. Humeke had to give order when a delighted whistle from the audience of 200 greeted testimony by a friend of Mrs. Lorenz that Mrs. Dill habitually wore "a dirty rag tied around what I had been told was a dirty wig." The remark was eliminated as hearsay.

According to testimony of Mrs. Lorenz and her friend, Mrs. A. De Noon, Mrs. Dill's costume around the home consisted of brown kickers, brown shirt, cotton stockings and tennis shoes.

In contrast to the testimony, Mrs. Dill today appeared in court wearing a smart summer frock—her second complete change in her "divorce warzone" for which she was shopping early this week.

Also on the stand today were Walter C. Blackburn, former caretaker at the Dill home, who testified regarding statements made by Mrs. Dill regarding union labor, and Frank Pukhousier, attorney, who backed up Dill's allegations of slander concerning Dill's health and habits.

## Eye Witness Of Killing Found By Prosecution

SAN JOSE, Cal., June 26.—UP—A woman who reportedly was an eye-witness to the slaying of Dr. Jasper Gaurio, San Jose dentist, will be called to the witness stand Monday when the murder trial of Peter Voise, 72 year old recluse, resumes in Santa Clara county court, state's attorneys indicated today.

Chesley M. Douglas and H. S. Bridges, prosecuting the case against the aged mining prospector, returned here today after an overnight trip to Bakerfield. It was reported, though not confirmed, they interviewed the "mystery" woman, whose name has not been revealed and have hopes of strengthening their case considerably through her testimony.

She is said to have been an eye-witness to the "picture" slaying and to have provided a blanket used to wrap around the dying dentist when he was taken to a hospital.

## Disappearance Of Local Woman Probed By Police

Police aid last night was enlisted in a search for Mrs. Edith Bockius, 36, of 327 Third street who has been missing since 1:30 A. M. Friday.

According to police reports, Mrs. Bockius, who is employed at an East Richmond tavern, took a woman friend to El Cerrito an early hour yesterday morning and she has not been seen since.

James Bockius, husband of the missing woman, was unable to advance any reason for the strange disappearance.

Mrs. Bockius is driving a Ford coupe. She is five feet, four inches tall, weighs 120 pounds, has brown eyes and brown hair and was wearing a pink waitress' uniform and a brown coat.

Police of the state have been asked to search for the woman.

## Woman Is Not Worried Over Fraud Charges

SEATTLE, June 26.—UP—Mrs. Emily Paddelford, arrested a week ago in Pueblo, Colo., was held today in the city jail for questioning in connection with a charge of defrauding a Seattle dress shop of women's clothes.

She tightly clutched her Pekinese dog and insisted she was not worried about her predicament, adding "I and my little doggy have been in worse trouble and have always gotten out."

She referred to a recent journey to Italy in which she said she was held for questioning in connection with an espionage affair, then transferred to France and was released.

"So many people think I am nothing but a confidence woman, but I insist they are wrong," said the 50-year old stylishly dressed woman, who says she speaks German, French, Italian and Russian and contends she was once married to a millionaire.

## School Teacher's Death Results In Damage Suit

MARTINEZ, June 26.—Death of Miss Ann Virginia Christensen, 29-year-old Alameda school teacher, in an automobile collision near Pinole, nearly a year ago, today brought filing of a \$55,570 damage suit by her parents, Carl L. Christensen and Nannie Christensen in superior court here.

The action names Cecil Andrus, Joseph Deemer, John Doe Faria and Joseph Longo, and others as defendants.

Miss Christensen met death when an automobile she was driving, with her mother, Mrs. Nannie Christensen as a passenger, was involved in a collision with a machine driven by Andrus at Garity Flat, near Pinole, on June 30, 1935.

The plaintiffs charge that Andrus was intoxicated. The suit further alleges that Longo, as an officer, failed to secure medical aid and judgment is also asked against him for alleged failure to assume his obligations.

Of the amount in damages, \$5,400 is asked for injury to Mrs. Christensen and \$50,470 for death of Miss Christensen.

Andrus was tried on a manslaughter charge and was acquitted.

## San Jose Port Election Held Null By Court

SAN JOSE, June 26.—UP—Superior Judge William F. James today issued a writ of prohibition invalidating an election held here last year for the formation of a San Jose deep water district and election of three harbor commissioners.

Judge James sustained a petition filed by Fred Malmke, San Jose apartment house owner, that formation of the proposed district was void because preliminary proceedings conducted by the board of supervisors were undertaken illegally.

Since institution of the suit last February, the city took over the port project and now has on file in the PWA bureau in Washington an application for a federal grant to aid in the construction of a \$2,500,000 project.

## Federal Taxes On Wines Cut By New Order

WASHINGTON, June 26.—Federal taxes on wines were cut in half and an independent federal alcohol administration was created today when President Roosevelt signed the alcohol control measure placed on his desk before Congress adjourned last week.

Tax levies on sweet wines were cut from 40 cents to 20 cents a gallon and dry wines from 20 cents to 10 cents a gallon under an amendment sponsored by U. S. Senator Hiram Johnson and William Gibbs McAdoo, of California, the state which produces the greater part of American-made wines.

Another amendment to the original bill gave American producers the right to use foreign names for their products except in the case of champagne.

## Bannister Has Abandoned Plan To Get Daughter

RENO, Nev., June 26.—UP—District Judge Thomas Moran late today indefinitely continued a hearing on the motion of Harry C. Bannister, divorced husband of Ann Harding, blond film star, to regain custody of their seven-year-old daughter, Jane.

Attorney Sam Platt gave no reason for asking Judge Moran to vacate the hearing set for July 2. It was assumed the hearing would await Miss Harding's return from England, where she is making a British talking picture. Her daughter is with her.

Bannister, New York actor, sought to amend a decree of Judge Moran giving sole custody to the actress on the grounds he was not present when the court made the ruling.

thing is possible or probable. But I have always expressed my deep convictions, many times I know to the embarrassment of the man who pays my salary.

I am therefore reconciled to the idea that whenever the spirit moves me to discuss political subjects, I will find many people in violent disagreement and doubtless will find myself in a position analogous to that of a New Jersey editor. This I subscribe to as a matter of course, stretching a long bow.

A few days ago the same lady refused to renew her subscription because she did not approve of an editorial written about the Hauptmann case. That and that only was her objection to the paper.

Naturally the editor felt that the woman was unfair, so he got out his pencil and began to do some figuring. For the 78 weeks he had been writing for the paper he calculated that he had turned out 312 editorials and something in ONE of them offended. I wish I could do as well and cause as little offense.

There is one thing the reader should always bear in mind. Editorial utterances are only the opinion of an individual but he has just as much right to his beliefs as yourself even though your thoughts do not run in the same, identical channels.

## Court Refuses To Annul Marriage

SAN FRANCISCO, June 26.—UP—The efforts of James Macdonald III, heir to millions made in Rockefeller oil promotions, to break a marriage contracted after a school-time romance struck a new snag today when the California Supreme Court denied his petition for an annulment.

The annulment was refused by the Supreme Court which several weeks ago upheld the validity of the marriage, contracted in Nevada between young Macdonald and Aegia Breeze, of Berkeley, when they were students at College of Pacific, Stockton.

PHILADELPHIA, June 26.—UP—Vice President John N. Garner who will be re-nominated tomorrow, arrived at the Bellevue-Stratford headquarters of the Democratic national committee, late today and was given an ovation which was led by the Texas delegation.

National Chairman James A. Farley, Senator Joseph T. Robinson, Arkansas; Governor George H. Earle of Pennsylvania, and more than a score of dignitaries escorted the vice president from the train to the hotel.

## Western Pacific Reports Deficit

The auditors reported a net operating deficit for the month of \$149,598 as compared with a net income of \$149,422 for the same month last year. The May deficit brought the 1936 total to \$510,345 as compared with a deficit of \$119,526 at the same time last year.

## MESSANGER FOR BANK IS SLUGGED

(Continued from page 1)

"I was struck 6 or 8 times I think they were hitting me with guns because as I went down I saw a big revolver in one man's hand."

**SATCHEL STOLEN**  
"I tried to hang onto the satchel but they yanked it away and ran to a car outside, in which another man was sitting," he told officers. I couldn't see them very well, because the blood was running into my eyes."

Carlisle said he was engaged in his regular afternoon route, picking up deposits.

**LONG EMPLOYED**

He was treated for a lacerated scalp. Bank officials reported Carlisle, who has been employed there 26 years, had made 10 calls before going to the grocery company. The amount of checks and money orders had not been determined, they said, although it was said it might run as high as \$30,000.

Carlisle said he had a gun in his pocket, but didn't have time to draw it.

**POLICE ON TRAIL**

"I've been held up twice before, once in 1923 and again in 1925, but each time I outwitted the robbers," he said.

The messenger was unable to give an accurate description of his assailants. Police throughout the city were ordered to watch for the bandits. Squads of patrol cars attempted to trail the fleeing trio.

which has charge of state liquor law enforcement, were kept cool by their heels in Los Angeles for several days waiting for a chance to testify. Finally they stalked out without waiting for permission to leave.

**MERRIAM IN ANSWER**

SACRAMENTO, June 26.—UP—Gov. Frank F. Merriam today labelled as "the sour grapes of a discharged employee" charges of Robert Brown, former Los Angeles liquor control administrator, that the governor "either had acted incompetently or was the party to a corrupt scheme in state liquor control affairs."

"I do not desire to dignify the statement of Robert Brown before the Donohue investigating committee in Los Angeles by an answer," Merriam said, after reading a United Press story relating Brown's testimony.

**WELCOME INVESTIGATION**  
"I snacks of sour grapes of a discharged employee. I trust the committee will demand from him specific statements and refuse to accept his opinions rather than facts."

"I welcome any investigation by the committee. My only connection with the board and the only responsibility with which I can indirectly be charged is the appointment of one of five of the board members."

when he accepts his re-nomination at Franklin Field tomorrow night. "It was a mistake to inject a proposed constitutional change in a party platform," said Senator Walter George, Democrat, Georgia, one of the conservative leaders. "That is a subject for legislation only."

It was pointed out that the G. O. P. platform dodged recommendations of constitutional changes. Governor Alf M. Landon, of Kansas, the Republican nominee, however, wired the Cleveland convention before he was chosen that he would not hesitate in supporting any amendment to insure to states the right to legislate regarding maximum hours of women and minors.

Governor Herbert Lehman of New York and other liberals who won their fight to place the party squarely on record concerning the constitution, pointed to a development today as justification for their position—invalidation of the railroad pension act by Justice Jennings' Bailey of the District of Columbia Supreme Court.

**FARM LEADERS PLEASED**

The agricultural plank, endorsing the New Deal's farm policy to date and promising continued aid to the rural areas through crop control, commodity loans and retirement of 10,000,000 acres of marginal lands, was generally satisfactory to farm leaders.

The heads of the non-partisan organizations refused to comment publicly, but pointed out that many of their recommendations to the resolutions committee had been written into the plank.

The currency plank promising a stable dollar of fair value to both the creditors and debtor also pleased the farm leaders.

At the same time, however, the New Deal rejected the currency expansion program proposed by Senator Elmer Thomas, Okla., violently opposed by the conservatives and condemned by old-line economists.

The labor plank, it was learned, was dictated to a large extent by John L. Lewis, president of the United Mine Workers of America, and the most powerful individual labor leader in America. It lists as one of the achievements of the New Deal the Warner-Connelly Labor Act which guarantees to workers the right of collective bargaining without interference or coercion from employers.

## Silk Stocking Slayer Examined By 3 Alienists

SAN FRANCISCO, June 26.—UP—Alienists tonight examined Albert Walter, Jr., in the county jail to determine whether he was insane when he strangled Blanche Cousins, Idaho Falls, to death with a silk stocking.

Three doctors entered Walter's cell to make their third examination of the youth whose defense plans to plead guilty to a charge of first degree murder were frustrated by a court order to substitute a plea of not guilty.

Waiting for the alienists' verdict—which will be disclosed officially to Superior Judge Lyle Jacks next week—were the 21-year-old slayer's wife, Angela Walter, and his father, Albert Walter, Sr., Boston salesman.

of perjury and subornation of perjury, warned the council and Mayor Hans Roebke who demanded his ouster yesterday that "you haven't heard the last of me."

Storming into the city hall under an escort to remove personal effects from his office, he told councilmen he intended to fight to retain his position. He and Bryant both indicated they will plead not guilty to accusations of collusion and perjury in their testimony regarding handling of City Employers' Association funds.

Fritz is at liberty under \$6,000 bail but Bryant still is in the county jail having been unable to raise \$2500 bail.

**SHAKEUP SEEN**

Charging Fritz headed a political machine which has dominated Alameda for more than a year, Morris and Fischen said they hoped to restore the city officers to their "original status" as quickly as possible. Political observers predicted Mayor Roebke, assertedly on the "driver's seat" of the political machine, will be permitted to resign because of illness.

Attempts have been made to seek Roebke's dismissal through recall petitions.
